Exhaust Blower (Motor Only)

INSTALL INSTRUCTIONS

Before Installing

- **ALWAYS** unplug the unit before beginning any work
 - Allow the unit to cool completely if recently used
 - Work in a well-lit area with proper tools
-

Installation Steps

1. Power Disconnection

Unplug the stove from the power.

2. Access the unit

- Remove or open any necessary access panels on the stove to access the exhaust blower.
- The location of the panels may vary by model, but will generally be located on the right side of the stove behind the service door.

3. Disconnect Blower Wiring

Disconnect the motor wiring from the wiring harness moxex connector. If a grounding wire is present in the assembly, disconnect the wire.

Tip: you can take a photo of the wires to note the color coding of the wires and connections before removal.

4. Remove Old Blower

- Remove the 6 hex nuts that fasten the motor hub to the assembly with an 8mm or 11/32" socket.

- Remove the old exhaust motor and gasket from the blower housing.
- Make sure to inspect the size of the motor mounting plate.
- The mounting plate on this motor is approximately 6” diameter. If the mounting plate on the original blower is a different diameter (i.e. 7” diameter), then a different blower motor may be needed instead.

5. Install New Blower

- Carefully position the new motor assembly and gasket onto to the blower housing with your wire leads in the UP position.
- Fasten and secure the blower motor to the housing using the 6 hex nuts removed prior.

6. Connect Blower Wiring

- Plug the new motor’s wiring connector to the wiring harness.
- Attach the green grounding wire to one of the motor mounting posts.

7. Final Assembly

Close or reattach the stove access panels.

8. Power Connection

Plug in the stove to test.

Post-Installation Check

- Verify all connections are secure
 - Test blower operation before closing panels
 - Check for any unusual noises or vibrations
-

If you encounter any issues during installation, consult your owner's manual or contact technical support via our contact form.
