

CONVECTION BLOWER 80622

INSTALL INSTRUCTIONS

Replaces MPNs: 80622, F33HA

Before Installing

- **ALWAYS** unplug the unit before beginning any work
 - Allow the unit to cool completely if recently used
 - Work in a well-lit area with proper tools
 - Ensure there are no pellets in the hopper assembly
-

Installation Steps

1. Unplug the unit from the power source.
 2. Remove the right-side service panel to access the blower.
 3. Disconnect the blower's wires from the main wiring harness.
 4. Remove the blower mounting screws from the rear wall of the stove and remove the blower.
 5. Install your new blower with a new gasket.
 6. Reconnect the blower wiring.
 7. Push the high-limit reset switch button just above the blower (This will verify the switch is not in the open position).
 8. Plug the stove in.
-

Post-Installation Check

- Verify all connections are secure
- Ensure all wiring is not in proximity of moving parts
- Test motor operation before closing panels
- Check for any unusual noises or vibrations

Support
