

CONVECTION BLOWER Blower1-HP22i

INSTALL INSTRUCTIONS

Replaces MPNs: RB-22i

Before Installing

- **ALWAYS** unplug the unit before beginning any work
 - Allow the unit to cool completely if recently used
 - Work in a well-lit area with proper tools
 - Ensure there are no pellets in the hopper assembly
-

Installation Steps

1. Disconnect the power from the unit.
 2. Pull the insert forward out of the firebox.
 3. Disconnect both power wires running to the fan motor.
 4. Loosen the bolts attaching the mounting bracket to the stove and remove the fan assembly.
 5. Position the new fan assembly in place and reinstall the previously removed bolts.
 6. Connect the previously removed power wires to the tabs on the new motor.
 7. Reposition the insert and slide it back into the fireplace opening.
 8. Plug in the unit.
-

Post-Installation Check

- Verify all connections are secure
- Ensure all wiring is not in proximity of moving parts
- Test motor operation before closing panels
- Check for any unusual noises or vibrations

Support
