Before Installing

- **ALWAYS** unplug the unit before beginning any work
 - Allow the unit to cool completely if recently used
 - Work in a well-lit area with proper tools
-

Installation Steps

1. Disconnect Power

- Ensure the unit is completely cooled down and drained of power.
- Unplug the grill from the power source.

2. Access the Unit

- Open the main grill lid.
- Locate the cooking grates in the grill. The cooking grates are the main cooking surface mounted inside the burn area.

3. Remove Old Grates

- Lift and remove the grill grates from the grill's cooking area.
- Inspect the mounting brackets for warpage or damage, the grates need to properly seat into the barrel.

5. Install New Grates

Insert the new grates into the grill barrel, ensure the grates sit flush and even to each other on the mounting brackets.

6.. Connect Power

- Close the main grill lid.
 - Plug the grill's power cord into the power source.
 - Your new cooking grates are installed and ready to use.
-

Post-Installation Check

- Verify if the grates sits flush inside the grill before final assembly
 - Be careful not to touch the grill while testing or operating, allow the unit to cool completely before making any adjustments.
