

COOKING GRATE KIT0238

INSTALLATION INSTRUCTIONS

Replaces MPNs: KIT0238

Before Installing

- **ALWAYS** unplug the unit before beginning any work
 - Allow the unit to cool completely if recently used
 - Work in a well-lit area with proper tools
-

Installation Steps

1. Disconnect Power

- Ensure the unit is completely cooled down and drained of power.
- Unplug the grill from the power source.

2. Access the Unit

- Open the main grill lid.
- Locate the middle cooking grate in the grill. The middle grate is mounted in the middle of the grill's cooking space, sitting right above the main cooking grates on the bottom.

3. Remove Old Grate

- Lift the front cross rod of the grate to disengage it from the grate support on the sides of the grill.
- Pull the old grate out from the grates slide to remove it from the grill.

5. Install New Grate

- Insert the new middle grate into the grill centered side to side with the rear bent edge inserted first. Let the back of the middle grate rest on the grate slide and then slide in.

- Insert the front cross rod into the notch of the front grate support to lock the new grate into place.

6. Connect Power

- Close the main grill lid.
 - Plug the grill's power cord into the power source.
 - Your new cooking grates are installed and ready to use.
-

Post-Installation Check

- Verify if the grates sits flush inside the grill before final assembly
 - Be careful not to touch the grill while testing or operating, allow the unit to cool completely before making any adjustments.
-

Support

If you encounter any issues during installation, consult your owner's manual or contact technical support via our contact form.
