

WI-FI ANTENNA KIT0634

INSTALL INSTRUCTIONS

Replaces MPNs: KIT0634

Before Installing

- **ALWAYS** unplug the unit before beginning any work
 - Allow the unit to cool completely if recently used
 - Work in a well-lit area with proper tools
 - Ensure there are no pellets in the hopper assembly
-

Installation Steps

1. Remove the hopper service access panel.
 2. Remove the smart combustion cover.
 3. Remove the nut from the bottom of the antenna, and slide it over the cable.
 4. Locate the antenna cable on the motherboard and disconnect it.
 5. Remove the antenna, pulling the wires through the access hole on the top of the hopper.
 6. Replace with new antenna in reverse order, threading cable through the nut before attaching the cable.
-

Post-Installation Check

- Verify all connections are secure
 - Ensure all wiring is not in proximity of moving parts
 - Test motor operation before closing panels
 - Check for any unusual noises or vibrations
-
